

GitHub Setup Instructions

You will be requesting an educational discount with your fullsail.edu email address. **Be sure that you have access by logging into your inbox first.**

_____AFTER GETTING INTO YOUR STUDENT EMAIL_____

Create a GitHub at <https://github.com/> Account Using your Fullsail.edu email address and Choose Free Account Features unless you want to pay money or already have an account.

Click the Verification Link in your email inbox. If you didn't get it try clicking the resend feature in the **GitHub->Settings->Email** section on the website.

After clicking the Verification Link check the GitHub->Settings->Email section & make sure it is now marked as verified & make sure it is also marked as the primary email for the account.

_____ONCE YOU HAVE AN ACTIVE GITHUB ACCOUNT_____

Go to GitHub Education Website at <https://education.github.com/> and request a student account by clicking the **Request A Discount** Button.

It should automatically detect your Full Sail Email!

Paste "We are using GitHub for our Graphics II Course Project at Full Sail University." in the explanation when requesting the account.

You should eventually receive an email from education@github.com that the account has been upgraded for free. **Be sure to check your junk mail folder!**

_____ONCE YOU HAVE BEEN UPGRADED_____

Create A **PRIVATE** repository & add **GX2Overlord** as the only collaborator!

_____COMMIT THE FOLLOWING FILE IN THE ROOT OF YOUR REPOSITORY_____

This file prevents unnecessary files from being committed.

Any problems regarding setting up a GitHub repository or problems regarding these instructions should be communicated to instructors to alleviate point deductions during your project.

Students whom cannot create GitHub accounts by the 2nd Lab Period will be required to create local git repositories. Although they can switch over as soon as they get access afterwards. During Milestone turn-in dates and times students who don't have a repository on GitHub will be required to zip & submit the

GitHub Setup Instructions

entirety of the local repository on the studentvfiler. Be sure to name this zip intelligently.

ONCE YOU BEGIN REVISIONING

Go to the graphics II sidekick <https://edo.fullsail.edu/sidekick> and complete the "Git Project Required Agreement" & Submit an "Initial Info Project Rubric" with your name and git repo info filled out at the top left of it(In the case of not having a GitHub Private Repository Address put "Local Repo" in the address section). These 2 things need to be completed by Lab 2.
